It is also a very important event, which we have conducted in our college campus SLNCER on 26-09-2019. We had given awareness about rain water. According to this, rainwater harvesting is a type of harvest in which the rain drops are collected and stored for the future use, rather than allowing it to run. Rainwater harvesting is an ancient practice that still holds many benefits and value for our modern times. Our students got to know that, rain water collection can be teach valuable lessons in water conservation which is becoming more important as our freshwater resources get stretched further and further.

We have conducted an ATM awareness program to our college staff and students on 10-10-2019 in SLNCER. ATM attacks are among the most prevalent forms of fraud striking banking institutions and their customers. According to this program, we had given awareness regarding ATM, here are some consumer tips to help reduce ATM Skimming incidents. i) Be wary of anything about the ATM machine that looks out of the ordinary.

ii) Steer clear of a jammed ATM machine that forces customers to use another ATM that has a skimmer attached. Often, the criminal will disable other ATM's in the area to draw users to the one that has the skimming devices on it.

iii) Always protect your PIN; Don't give the number to anyone and cover the keypad while you are entering the PIN

21. NSS Unit

iv)If you find unauthorised ATM transactions on your bank account, immediately notify local law enforcement, as well as your financial institution or the establishment where the ATM is located. Finally ended this event with huge message and awareness of ATM.

Environmental awareness should be a part of the curriculum in all colleges. This will encourage young people to engage in their environment to protect it and can help communities become more environmentally aware. Environmental awareness was held on 14-10-2019 at college campus, SLN. College have a responsibility towards future leaders, not just teaching them how to read and write, but also educating them about environmental awareness. Environmental awareness is about being aware of the environment. This refers to all flowers and animals and includes all marine and wildlife. The planet is currently facing an increasing number of environmental challenges, which includes climate change, global warming, droughts, water scarcity, floods and pollutions. Students, as early as possible, should be aware of environmental issues were facing.

Environmental awareness should be a part of the curriculum in all colleges. This will encourage young people to engage in their environment to protect it and can help communities become more environmentally aware. Around 30-40 students and staff members went out on a rally carrying placards with awareness messages about safe driving and prevention of head injuries. The rally appealed to the public to adhere to road rules, indulge in disciplined driving and wear helmets. Our college principal

21. NSS Unit

Dr.R.Basawaraj, said that fatal deaths on roads during driving could be prevented if people wore helmet rule as statistics showed that head injuries were major cause of death in road accidents. The students rally was to create adequate awareness among the public about helmets. Dr.R.Basawaraj said “The support of IOC enabled us to hold the rally and our students were ready to participate in this public cause. Since the city police have started collecting fines from motorists not using helmets, this was the right time for the college to take out a rally”. All the students have participated in program.

Some practical tips SLN college can adopt:-

Introduce the 3 R's: (i) Reduce waste (ii)Reduce Resources (iii) Recycle Materials

*Organise tree planting days at college and tell them why trees are important to the environment

*Encourage students to switch off all appliances and lights when not in use

*Ensure taps are closed properly after you have used them and use water sparingly.

Students should encourage parents to share their environmental knowledge to let the children practice at home doing small tasks like picking up their trash and throwing the garbage.

9. HELMET AWARENESS PROGRAM
